

# WEB DESIGN

Established in December 2002, TWS has grown to be a market leader in web design and development for both small sites and large global applications involving complex modelling & data interrogation.

TWS Specialises in websites for the technical sector including manufacturing, consulting and the sciences and has served hundreds of customers, both small and large, over 22 years.

Key ethics behind the TWS service are VISIBILITY, PERFORMANCE & ACCOUNTABILITY, working to ISO 9001 quality standards, ideal for customers that have a preference for certainty and quality.

## Range of Websites

We offer a full range of web site solutions ranging from one page sites and Wordpress solutions through to custom managed sites and e-commerce platforms. Whatever your requirements, TWS can assist.

## Web Site Management

TWS specialise in proactive website management, helping you take your website forward, and responding to changes in web technology. This service is supported by integrated management solutions and reporting.

## COUNTA

TWS bases all managed websites on the COUNTA platform which has been developed over 20 years to help manage site performance and functionality, encompassing the very latest in Google Indexing and keyword ranking.
